Datamax-O'Neil's New I-Class *Mark II* Replaces Previous I-Class Printer Models

Datamax-O'Neil introduced the all-new I-Class *Mark II* series in March 2012. I-Class *Mark II* is a high performance industrial printer which is loaded with standard features not offered by competitive printers in its class. It will replace the previous I-Class model. The new printer offers numerous benefits, including:

- super fast processor
- expansive memory
- wide selection of communication ports
- intelligent printheads with reporting capabilities
- OPTIMedia™ - an all-new feature that automatically selects heat, speed, darkness, and contrast settings to produce the best quality print.
- substantial reduction in power consumption

The previous I-Class will be discontinued, and the **last date to order will be November 30, 2012**. The chart below lists the discontinued models and their respective replacements. I-Class range has been simplified from 5 to 3 base models. A comprehensive CID listing cross referencing I-Class to I-Class *Mark II* configurations is attached.

Discontinued model		Replacement Model	
CID Starting with	Model #	CID Starting with	Model #
R42-	I-4208	I12-	I-4212e
R22-	I-4212	I12-	I-4212e
R23-	I-4308	I13-	I-4310e
R44-	I-4406	I16-	I-4606e
R46-	I-4604	I16-	I-4606e

- **Last order date for previous I-Class models is November 30, 2012**
 - Spare parts will be available through November 30, 2017
